

Electro movers

for NAUTIC, SHIP YARD, DOCK and BOAT
STORAGE

How can I move the boats quickly and safely?

Are there powerful, compact, yet flexible solutions?

Robik electric mover meets all these requirements by enclosing in a single solution the identity of a fast, powerful, manageable and above all flexible electric lift, tractor, tow and pusher.

Multifunctional

Suitable for any type of terrain, **Robik** is able to handle large, bulky and unconventional loads without the use of without the use of expensive and bulky, polluting and noisy machinery.

Flexible and compact

For environments close to the sea often subject to salt spray, such as docks, warehouse and shipbuilding, or which in any case use processes with highly corrosive agents, a special configuration in 316 steel and special treatments such as cathaphoresis with anchoring paint to guarantee quality over time are available on request.

STRENGTHS

- ✓ Compact and robust
- ✓ Handy and powerful
- ✓ Safety
- ✓ CE Certifications
- ✓ Used in different landscape and/or outside
- ✓ Suitable for tight spaces
- ✓ Efficiency material handling
- ✓ Cost reduction
- ✓ Maximation of investment
- ✓ High quality
- ✓ Radio control
- ✓ Made in Italy
- ✓ Patent pending
- ✓ Towing and pushing on horizontal plane +/-20.000 kg
- ✓ Lifting on horizontal plane +/-12.000 kg

Stee frame

Radio control

Lifting plate

ATTENTION: the towing capacity in tons can vary substantially from the nominal value reported here, depending on the type of soil on which the towing is carried out, on the type, number and condition of wheels fitted to the trailer, on the presence of any gradients and friction present and generated in the system.

Robik Models

The Robik range includes different models of electro handlers, depending on the type of drive (radio control or rudder), the towing capacity and lifting capacity (if there is lifting platform system)

Robik Q120

LIFTING: yes (up to about 12.000 kg)
TOWING: yes (about from 20 to 60 ton)
GUIDANCE: radio controlled

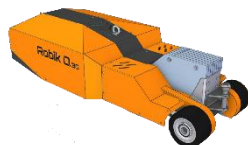

Robik Q30

LIFTING: yes (up to about 3.000 kg)
TOWING: yes (about from 10 to 40 ton)
GUIDANCE: radio controlled

Robik Q30 - Rudder

LIFTING: yes (up to about 3.000 kg)
TOWING: yes (about from 10 to 40 ton)
GUIDANCE: by rudder

Robik 30

LIFTING: no
TOWING: yes (about from 10 to 40 ton)
GUIDANCE: radio controlled

Robik 30 - Rudder

LIFTING: no
TOWING: yes (about from 10 to 40 ton)
GUIDANCE: by rudder
